CAREER HIGHLIGHTS

Web Developer (2022 – Present)

Translated business requirements into effective, responsive solutions. Collaborated closely with clients to understand their needs and guided them through the development process. Committed to delivering high-quality, scalable code and staying current with industry best practices.

Personal Banker (2018 - 2022)

During my role as a personal banker at ANZ, I demonstrated adaptability, communication, and problem-solving skills. Managed customer relationships, identified needs, and provided tailored solutions.

Sales Consultant (2016 - 2018)

Delivered personalized customer service at CONNOR Clothing by assisting clients with product selection based on their preferences. Handled inquiries, managed inventory, collaborated for smooth operations, and participated in sales promotions.

EDUCATION

Free Code Camp

Responsive Web Design Course

Acquired skills in mobile-friendly layouts, responsive design, CSS flexbox, and accessibility for web development.

RMIT University

Bachelor of Applied Science (Psychology) (2014 -2017)

My coursework in psychology, with a focus on statistics, provides a strong foundation for data analysis and strengthens insight extraction for web development.

OBJECTIVES

Result-driven web developer with a keen eye for detail, seeking an opportunity to leverage and further enhance skills in software development. Dedicated to delivering high-quality solutions, I aim to contribute to the success of projects and exceed expectations. Ready to bring creativity, problem-solving abilities, and a passion for clean and efficient code to a dynamic team environment.
